## State Legislature Passes 800 Bills in Whirlwind Finish

Final Hours Marked by Bitter Charges From Both Political Camps—Proceeds of Gas Tax Mainly For Farm Relief—Increased Exemption Proposed For Income Taxpayers.

Albany, March 29 (AP).—Strife between Governor Roosevelt and the Republican majority of the senate and the assembly continued through the last hours of the 1935 legislative session.

There were charges and counter-charges from both camps as the session came to a whirlwind finish which saw the passage of the major product of the legislature's deliberation, a two-cent tax on gasoline with the proceeds to go mainly for farm relief. This was the Republican bill.

The \$54,000,000 supplementary budget bill, which with the gasoline tax measure had been a source of friction between the majority and the governor, also was passed.

Another bill sent to the governor would provide for increased exemptions from the state personal income tax. For single persons the exemption would be increased from \$1,500 to \$2,500 and for married persons, from \$3,500 to \$4,000.

Governor Roosevelt, in a statement issued shortly before the adjournment, charged the majority "deliberately assumed the role of the party of the opposition."

Call Governor's Contention Impracticable

Senator John Knight and Speaker Joseph A. McGinnis, majority leaders of the legislature, in a statement declared the governor's repeated contention for consideration of the budget as a whole "would result in confusion and was deemed impracticable" and also continued in their stand that jump sum appropriations should require joint approval of the governor and the legislative financial leaders.

Senator Bernard Downing, minority leader of the upper house, declared the session "repeated every effort to protect public welfare" and has been partisan to a degree "to make thoughtful people pause."

He has run mad in its effort to discredit Governor Roosevelt. "We have served only those who control it and use it for other purposes than the public welfare."

Maurice Bloch, Democratic leader of the lower house, repeated the governor's charge of "obstruction" and declared "the Republican leaders have stubbornly opposed him (the governor) all along the line, using their control of the Senate and Assembly to block progressive, humane and other needed acts of legislation."

Passage of the budget measure in the Assembly was accompanied by Republican charges that a park commission in which the governor once was interested had been guilty of "gross unjustifiable squandering" of bond issue money.

This charge, brought up by Eberly Hutchinson, chairman of the Assembly ways and means committee, was made during argument by the majority against allowing the governor sole power of segregating lump sums written into the executive budget, a right which the governor insisted he had.

The gas tax bill sponsored by the Republicans was passed after defeat of a Democratic motion to discharge the governor's gasoline levy measure.

About 400 Bills Passed. All told, about 400 bills were passed in the final six-hour meeting, most of them representing approval by one house of bills passed in the other.

The lower house concurred in action of the Senate in passing bills to provide for temporary committee to investigate old age wards of the state, development of Saratoga Springs as a health resort, the public service commission law and the general matter of justice administration. These committees would consist of a majority of appointees of the Republican legislature, as against the governor's plan that the committees consist mainly of experts named by him, with the minority named by the legislature.

Recess Commission Continued. Life of the Barnes crime commission also was continued for another year.

The crime commission measure designed to establish the crime of "involuntary homicide" resulting from reckless driving of automobiles, passed by the Senate, died in an assembly committee where it was sent on receipt from the upper house.

Threat of an extra session hung over the heads of the legislators as the session was run down. Said Assemblyman Louis A. Cavillier, New York Democrat, during the debate on passage of the supplementary bill: "I am afraid the governor is going to veto this and in may be we will all be back here."

National Bank's Call Issued. Washington, March 29 (AP).—The comptroller of the currency today issued a call for the condition of all national banks at the close of business on Wednesday, March 27.

## Local Dry Agents In Sullivan County

Find Wildcat Brewery in Old Barn Near Callicoon—Equipment Valued At \$15,000—Two Men Held For Hearing.

Federal agents from the Kingston office descended suddenly upon a wildcat brewery plant at Hortonsville, Sullivan county, Thursday and there found one of the largest brewing plants yet uncovered in the state. The plant was located in an old barn a short distance from Callicoon.

When the agents called they found the plant in operation with a quantity of mash in the process of fermenting.

The plant is one of the largest and most modern yet located and there was every needed equipment to turn out large quantities of beer. The plant is known as a 450 barrel capacity outfit and the equipment in the place is valued at over \$15,000 which together with the materials and brew seized will bring the value of the seizure up to \$20,000.

In the plant, which was located about 300 feet off the road, were two men who were placed under arrest and held in the Monticello jail overnight and arraigned before U. S. Commissioner Crist at Middletown later where they were held in \$1,000 bail each for a hearing on April 9.

The men gave their names as John Griffiths of 234 South Third street, and William Norman of 134 Ferry street, Easton, Pa.

On the premises at the time of the seizure was a large quantity of empty barrels in addition to the barrels which were filled with the brew. Samples were taken and the beer and plant were destroyed by the agents.

## \$100,000,000 Price Of Wireless Deal

International Telephone & Telegraph Company Becomes Largest International Communications System in the World.

New York, March 29 (AP).—The New York Herald-Tribune said today that the International Telephone and Telegraph Corporation had purchased R. C. A. Communications Inc., the world-wide wireless system of the Radio Corporation of America.

The price was about \$100,000,000. Negotiations had been under way for some time. The Herald-Tribune says the agreement was signed in a suburb of Paris yesterday by Owen D. Young, chairman of Radio Corporation of America; David Sarnoff, vice president and general manager of the R. C. A., and Thomas W. Lamont, a partner in J. P. Morgan & Co., for I. T. & T.

The deal makes the International Telephone and Telegraph Company the largest international communications system in the world with a comprehensive telephone, telegraph, cable and wireless system extending to the remotest parts of the globe.

Payment, says the Herald-Tribune, will be made in I. T. & T. stock at present market values, the stock to be held by the R. C. A. in the same manner in which it now holds common stock of the Victor Talking Machine Company, Radio-Keith-Orpheum and R. C. T. Photophone, Inc.

Combat Groups Organized Abroad. Financial circles saw in the purchase an effective means of combating the national radio-cable groups being organized abroad, particularly in Great Britain.

The White act prohibits merger of communication systems, but it was thought in financial circles this had been circumvented by the outright sale.

The I. T. & T. was incorporated in 1920 and since then has acquired the International Western Electric Company, the all American Cables, Inc., Mackay Companies and companies in South America, Europe, Cuba and Porto Rico.

Report Neither Affirmed Nor Denied. London, March 29 (AP).—Owen D. Young and David Sarnoff today would neither affirm nor deny reports published in the United States of a sale of Radio Corporation of America Communications, Inc., to International Telephone and Telegraph Company.

## Breaks Air Record With Auto Gas

Roosevelt Field, N. Y., March 29 (AP).—Martin Jensen today holds an unofficial solo endurance airplane flight record of 35 hours, 33 minutes and 21 seconds.

The record was established when he landed at 5:34:55 p. m. yesterday, having been in the air eight minutes and 22 seconds longer than the time of the late Royal V. Thomas.

It was unofficial because the National Aeronautical Association does not list solo records. It keeps only one endurance record, irrespective of the number in the plane and without regard to sex. Officials of the association, however, supervise and time solo endurance flights.

When Jensen landed he had one gallon of high test automobile gasoline left in his tanks. One object of his flight was to demonstrate that auto gas could be substituted successfully for highly-refined airplane fuel.

## Parker K. Brinnier Dies In Hospital

Death Follows Operation for Mastoid Trouble—Was Son of Late William D. Brinnier and Member of Firm of Brinnier & Carey.

Parker K. Brinnier, son of the late William D. Brinnier, died at 3 o'clock this morning following an operation for mastoid trouble performed on Thursday at the Benedictine Hospital.

Mr. Brinnier was taken suddenly ill Sunday and suffered great pain. On Wednesday he was taken to the Benedictine Hospital and after a consultation it was decided that an operation was necessary to relieve the condition.

This operation was performed Thursday by Dr. William J. Cranston assisted by Dr. A. C. Gates and although in a much weakened condition Mr. Brinnier rallied from the operation and hopes were held for ultimate recovery.

However, late Thursday his condition became serious and he died at 3 o'clock this morning.

Parker K. Brinnier was the second youngest son of the late William D. Brinnier and was a member of the insurance and real estate firm of Brinnier & Carey of this city. He was well and favorably known in this city and throughout the surrounding country.

He attended the old Kingston Academy and shortly after leaving school went in the office of his father for a time and then entered into partnership with Eugene B. Carey in the insurance and real estate business. He lived until next Tuesday he would have been 33 years old.

Besides his wife, Ruth B., he is survived by two children, Ruth Christina and John Van Etten, and by his mother, Mrs. Christina Brinnier, widow of the late William D. Brinnier, and two brothers, Judge William D. Brinnier, Jr., of this city, and Grant M. Brinnier of Saugerties.

Fraternally Mr. Brinnier was a member of Kosciusko Lodge, No. 86, I. O. O. F., Kingston Encampment, No. 125, Franklin Lodge, No. 37, Knights of Pythias, Charles De Witt Council, No. 91, Jr. Order United American Mechanics; Washington Camp, No. 2, Patriotic Order Sons of America; Roundout Yacht Club and Kingston Y. M. C. A.

The funeral will be held from the late residence, 26 Pearl street, on Monday morning at 10 o'clock. Friends wishing to view the remains may do so on Sunday afternoon between 3 and 5 o'clock. Interment will be in Wiltwyck cemetery.

## LEGALITY OF GOVERNOR'S APPOINTMENT STUDIED

Albany, N. Y., March 29 (AP).—A problem arising from the failure of the Senate to confirm the appointment of David C. Adie, of Buffalo, as a public service commissioner before the legislature adjourned was being studied by Governor Roosevelt today.

The term of one of the commissioners, William R. Pooley, expired in February but under the law he has remained in office pending appointment of a successor.

The legal question of whether the governor can make a recess appointment to fill the vacancy or whether Mr. Pooley must retain his post until the legislature meets again was the subject today of conferences between Governor Roosevelt and legal advisers.

## KINGSTON WOMAN INHERITS SHARE IN BROTHER'S WILL

New York, March 29. (Special to The Freeman)—Mrs. Kate L. Canfield of Kingston, N. Y., receives a share in the estate of her brother, the late Frank M. Smith, according to the terms of his will filed for probate in the Surrogate's court of Kings county here. She receives a life interest in property and \$200 a month for life.

Mr. Smith died October 30, leaving an estate which includes real property and \$10,000 personal. Among the legatees listed are Mrs. Sara L. Smith, the widow, New York; Matilda R. Lyons, New Canaan, Conn.; Henry Smith and Arrieta H. Smith, New York, children, one-fourth each.

## THE FLOWERS THAT BLOOM WERE CAUSE OF TROUBLE

Chicago, March 29 (AP).—The flowers that bloom in the spring, in la—especially daisies—have caused trouble between the Walter Martins. Mrs. Martin told Judge Joseph Sabath so in seeking a divorce from her husband, who, she said, had a petal plucking complex. Seeing a daisy, he would take it and pull its petals one by one, chanting the old refrain: "She loves me, she loves me not." If the last petal happened to be a "not" Mrs. Martin suffered, she said.

The court cited Martin for contempt, because Mrs. Martin said he had failed to pay alimony.

Jailed for Cruelty to Animals. Samuel Rose was committed to the Ulster county jail for five days on Thursday by Justice of the Peace Herman Osmer of Tilton. Rose was found guilty of cruelty to animals in the town of Rosendale.

Kelloggs Sail For Europe Tonight. New York, March 29 (AP).—Frank B. Kellogg, former secretary of state, and Mrs. Kellogg will sail on the Ile de France tonight for a vacation in Europe.

## Discover Plot to Assassinate Calles

Rebel General on Flight From Torreon Said to Have Left Well Paid Agents to Kill Minister of War—Another Battle Expected.

Mexico City, March 29 (AP).—Enrique Lickens, Mexican consul at El Paso, informed the government today that there was a plot on foot to assassinate General Plutarco Elias Calles at his headquarters in North-Central Mexico.

The consul said a telephone conversation between two prominent rebel leaders (presumably at El Paso or Juarez) had been overheard in which it was related that the rebel general, Jose Gonzalo Escobar, on fleeing from Torreon, left behind him "well paid agents" to kill Mexico's former president and minister of war.

Thus far no attempt has been made on the life of General Calles, who has his headquarters in the vicinity of Torreon.

Mexican government troops advanced on two fronts today finding little rebel opposition to delay their progress. Mile after mile of destroyed rail lines, however, made going slow and arduous.

In the north Federal cavalry under General Benigno Serrato occupied Escalon, former insurgent headquarters, after a fight in which two Federalists were wounded and four rebels killed. Another Federal advance guard unit in near Jimenez, nearer Chihuahua City, but made no attempt to enter the city.

Federal aviators reported Jimenez had been deserted by the rebels, who re-established themselves in Santa Rosalia, 75 kilometers to the northwest, although dispatches from the border said the rebels claimed still to hold this city. The main body of General Almazan's army was operating out of Jural Grande, below Escalon.

## Rebel Soldiers Not Being Paid

Government announcements said there had been numerous surrenders of rebels who no longer wished to fight against the government. News dispatches concerning some of these said the rebel soldiers were paid neither Monday or Tuesday and that the delinquency has been a great blow to morale. The Mexican soldier receives his pay daily and provides his own food with it.

## Battle Imminent

Juarez, Chihuahua, Mexico, March 29 (AP).—The crisis of the Mexican revolution apparently was near at hand today as only 17 miles of desert separated the federalists at Escalon and the rebels at Bellano, to the north. Reports received here said a battle before night was imminent.

The revolutionists made their first air raid yesterday, bombing Hermosillo, believed to be the headquarters of General P. Elias Calles, generalissimo of the federal army. Reports from rebel headquarters at Jimenez said the attack was successful, "doing much damage and creating much consternation among the federal troops."

## Rebels Show Activity

Nogales, Ariz., March 29 (AP).—Sudden activity in rebel quarters marked developments in the Mexican revolution in the state of Sonora today.

During the night, General Ramon Yucipio and his 500 Mayo and Yaqui Indian soldiers slipped out of the rebel garrison at Agua Prieta for an unannounced destination. Their whereabouts today was a mystery.

Between six and ten truck loads of rebel troops left Nogales, Sonora, west bound for the Sonora desert with the avowed purpose of reclaiming it for the insurgents. About 100 rebel soldiers were on their way to Mesquite, Sonora, and to Conoyta, Sonora, both near the Arizona border.

## Kidnaped Baby to Prove Her Charge

Easton, Pa., March 29 (AP).—Emma Nagle, 19, had made charges against her cousin, Clarence Warren—charges she could not substantiate without a baby. So she kidnaped one.

Today Emma was in jail and the baby was in Easton Hospital. Monday Miss Nagle was to have appeared before the Northampton county grand jury with the baby as evidence. She had appeared two weeks before with the story that the baby had not been born yet, and she was told to come back when it was.

Emma had left Wilson Borough, Pa., some time ago to earn her livelihood in Jersey City. There she obtained work in a laundry and made her home with Mrs. Angelina Lemice. Sunday afternoon the girl asked permission of the mother to take six-months-old Antoinette for a walk. Mrs. Lemice was hesitant, but Emma pointed to the sunshine and its benefits, so she consented.

Girl and infant returned Sunday evening. The request was repeated Monday morning, and Mrs. Lemice consented readily this time. That was the last she saw of her baby. This morning she came here, where Jersey City detectives had traced Emma and Antoinette.

Knight at Church Service. Rondout Commandery, No. 52, K. T., will assemble in their rooms Sunday evening, March 31, at 7 o'clock and proceed to the Clinton Avenue M. E. Church, where special services will be held for the Sir Knights.

## Farm Aid Bill Is Taking Form

Agencies and Revolving Fund Form Foundation—Congressional Committee Seeks Opinions on How Board Should Operate.

Washington, March 29 (AP).—Based upon the broad, general suggestions for farm relief laid before the country in the campaign speeches of President Hoover, a farm aid bill is beginning to take form in the House agriculture committee.

A farm board, price stabilization agencies and a revolving fund appear to be the three points that will form the foundation upon which the agricultural aid structure is being reared. The details of the superstructure, rough hewn and incomplete in many spots, are coming to view day by day as the hearings proceed.

Much of the work will remain to be done after the hearings are ended, but the general outlines of the measure will have been drafted before that time and for the most part only details of the operation of the plan will need to be added.

As an indication of the firmness with which the committee has seized upon the idea of a farm board, witnesses are being requested to confine their testimony to suggestions as to how such a board should operate. Other testimony largely appears incidental to the farm board and stabilization ideas.

Details of how these should perform, however, are listened to closely by the committee. If witnesses touching on these phases fail to go into particulars regarding them, questioning leads to those points.

Two definite details seem to have been determined by cooperative leaders yesterday. They urged that if stabilization corporations were to be formed, the farm board initiate such steps only upon the appeal of the marketing agencies for action. The other phase that appears likely to be written into the bill is a provision that stockholders in the stabilization corporations shall be members of the cooperative groups.

The stabilization plan, designed to take certain surplus products off the market when needed, is strongly urged by one group. Directly the opposite view has been taken, however, by several of the leaders of the cooperative marketing agencies, who hold that the only way to tackle the surplus problem is through a reduction of acreage.

## PERFUME SALESMAN GUILTY OF FIRST DEGREE MURDER

Harrisburg, Pa., March 29 (AP).—Convicted of murder in the first degree in the drowning of Miss Verna Klink, 20, Harry D. Bowman, 39, perfume salesman, today faced life imprisonment, the sentence fixed by the trial jury.

The jury returned its verdict late yesterday.

Miss Klink, manager of a confectionery store, was drowned in the Susquehanna river on January 25. Bowman maintained that while he was with her at the time, her death was due to a suicide pact between them. He said that he had lost his nerve and waded out of the river.

The state contended that Bowman had drowned the woman after robbing her of \$900 which she told him she planned to use to purchase the little store in which she was employed.

## JERSEY COAST WINDS WRECK ARMY BLIMP

Naval Air Station, Lakehurst, N. J., March 29 (AP).—An army blimp was a tangle of wreckage today due to its rude reception by Jersey coast winds while on a visit from Langley Field, Va.

The army non-rigid dirigible TC-5 was torn from the grasp of a ground crew of 160 and hurled a mile by a gust of wind that struck it while it was being walked into the hangar.

Captain John McCullough, commander of the blimp, and a seaman of the landing crew were injured slightly when knocked down as the ship blew away.

Warrant Officer Lassiter and three soldiers were aboard the blimp. They escaped uninjured when the ship, relieved of its helium gas, came down.

## URGES FAMILIES TO MOVE INTO UNFURNISHED FLATS

Chicago, March 29 (AP).—Social agencies were urged in a survey announced today by the University of Chicago, to rehabilitate families living in furnished rooms by inducing them to move into unfurnished flats.

Existence in furnished rooms was found to be "socially demoralizing, comparatively expensive, and harmful to health and morale of children."

Among the conditions said to be found prevalent in rooming house areas were drug addiction, begging, slovenliness, ill health, shiftlessness, chronic moving, neglect of children, eviction, frequent divorce and objectionable living accommodations.

Derrenbacher's Ice Cream Unchanged. Derrenbacher Ice Cream Company will manufacture ice cream the same as it has for the past seven years for the local company has been using during this period the highest grade pasteurized milk and cream obtainable. The fact that the company has been using pasteurized milk and cream will eliminate any change to meet the new state requirements as of April first.

## Start Repairs on State Highways

Many Bad Stretches Already Fixed—Work Much Needed—Another Section of Kingston-Ellenville Road to be Completed.

The work of repairing the state highways is under way and in many sections the work is much needed after the winter season. On route 9W south of Kingston work has been commenced and many of the bad stretches have been fixed. This road, which it was contemplated rebuilding this season, is in a very bad condition and until the new road is built there will be no permanent repairs put on it. Plans have been completed for the construction from the Orange county line to the Rondout creek bridge but no action has been taken by the state county board of supervisors toward securing of rights of way. It is likely that the construction will be held up indefinitely.

Another section of the Kingston-Ellenville road will be completed this year. Some of the work was done last fall before cold weather set in.

The section of road between Ashokan and Judge Windrum's property just beyond where the old Shokan road left the Ashokan boulevard will also be rebuilt. This is a portion of the old Kingston-Oneonta highway which was incorporated with Ashokan boulevard at the time the Ashokan dam was built and has never been rebuilt. It is known among those who travel over it as the "washboard."

Many other changes in alignment to eliminate bad curves will also be undertaken this year by the maintenance and construction department.

## Served Time for Another's Crime

Joseph Decker, Again a Defendant, Says He Did Long Stretch for Murder Committed by Another in Plattekill in 1896.

After he had served 10 years in Sing Sing for a crime he did not commit Joseph Decker, now 54, and resident of 139 William street, was asked forgiveness by the true culprit, then on his death bed. This was the story a defendant in the court of Justice of the Peace Harry Jett in New Windsor told last night, says the Newburgh News of Thursday.

Decker last night was sentenced to three months in the Westchester county penitentiary on a charge relating to unlawful conduct. Two physicians had testified that Decker, accused of unbecoming actions near School 1, in the town of New Windsor, is sane; but, on recommendation of the physicians, Justice Jett committed him to the care of the penitentiary physician.

Wife Testifies. Decker's wife and others testified in the hearing before Justice Jett, whose defense was presented by Mr. Ostrander, an attorney from Clinton. The doctors who had made the examination were Dr. R. W. Thompson of Cornwall and Dr. Percy Banks of Newburgh.

## Old Murder Recalled

Daniel Gardner, Lieut. John Powell of the Newburgh police, Undersheriff Lindsey Hutchins and others recall, was shot by a man named Joseph Decker in 1896. The state maintained that Gardner and Decker had a dispute while they were wedding a pot to patch near Plattekill.

Decker, who was charged, retired with a shotgun behind a wall from where he fired upon the other man.

Decker was later arrested in Newburgh by Policeman Alanson Topping. The prisoner, coming to Newburgh after the shooting, visited the barber shop of then Chief Nicholas Powell where John Powell was then working as a barber. Later Lieut. Powell testified at the trial in Ulster county.

## Told Name of Murderer

Decker now asserts that a few years after his release from prison he was called to the deathbed of a man who admitted the shooting and begged his forgiveness. Decker told Justice Jett the name of the man he says was the actual murderer.

## Glass Rebukes Bank President

Washington, March 29 (AP).—The action of Charles E. Mitchell, president of the National City Bank and director of the New York Federal Reserve Bank, in furnishing \$25,000,000 to relieve the acute credit stringency in Wall Street this week has brought a vigorous denunciation from Senator Carter Glass, Democratic Virginia.

Expressing his indignation over the "insolence of Mr. Mitchell, while holding a position in the Federal Reserve Board, in attempting to thwart the policy and will of the board," the former secretary of the treasury expressed the opinion that his resignation should have been demanded within 24 hours.

Mr. Glass has been interested in the fight of the stock market for some time, and is drafting legislation designed to give the federal reserve system more definite powers with respect to speculative transactions.

## Michaelson Was Indicted for Dry Law Violation

Six Months Ago Bar Was Never Arrested—Backed By Anti-Saloon League and Voted for the Jones Law.

Jacksonville, Fla., March 29 (AP).—A warrant for the arrest of Representative M. Alfred Michaelson, son of the Seventh Illinois Congress, issued today, charging violation of the National Prohibition Law, apparently has been in the hands of Federal officers here since last October.

The nature of the six months' old charge was revealed last night by E. R. Williams, clerk of the Federal District Court here, who said Michaelson had been indicted by a Federal grand jury for attempting to smuggle liquor into Florida from Cuba. Williams said the charge had not been made and no bond set, in accordance with the usual Federal Court procedure.

The indictment is said to charge that one of Michaelson's trunks was seized at Jacksonville, after a bottle of liquor inside it had broken. Federal officers confiscated the trunk for investigation and the indictment followed.

Federal officials here refused to give any other details of the case, beyond admitting the indictment had been returned.

## Backed by Anti-Saloon League

Chicago, March 29 (AP).—Congressman M. Alfred Michaelson, of Chicago, indicted on charges of violating the National Prohibition Act at Jacksonville, Fla., has been backed in his political career by the Anti-Saloon League and he has voted for several laws favored by the League, including the Jones Law.

Michaelson was first elected to represent the Seventh Illinois District in 1920 with the backing of the organization headed by Mayor "Big Bill" Thompson. He had served two terms as city alderman.

Michaelson's name was mentioned several times in the investigation of real estate expert fees cases and during his campaign of 1924, though nothing came of it.

A capias for Michaelson's arrest is in the office of the district attorney here. The congressman is expected to appear there in a few days to make bond. George E. O. Johnson, district attorney, refused to make any comment.

## NEW HAVEN RAILROAD SHOWS BIG EARNINGS

New Haven, Conn., March 29 (AP).—Earnings of eight dollars a share on common stock and a surplus after all charges of \$16,887,000, an increase of \$6,455,247, find mention at the very outset in the annual report of the New York, New Haven and Hartford Company made public this noon.

The report indicates that the company made long strides in 1934 along the road of rehabilitation of its finances and in its physical properties.

## SECRETARY STIMSON AT CABINET MEETING

Washington, March 29 (AP).—Secretary Stimson today attended his first meeting of the Hoover cabinet. President Hoover, however, has yet to preside at a full meeting of his official group, as Secretary Hyde of the agriculture department was absent today at his home in Missouri.

Stimson and Postmaster General Brown, who had not met previously, not acquainted in the lobby of the White House executive offices.

## PUBLISHER DIVORCES WIFE, HAS HER ARRESTED

New York, March 29 (AP).—Mrs. C. Revell, of Boston, who was divorced yesterday by Fleming H. Revell, Jr., of the Revell Publishing Company, was arrested on complaint of her former husband last night when found boisterous near the Revell home.

Mrs. Revell said she had come to see her daughter, Meriel, 16, the custody of whom had been granted the father.

## ITALIAN SUBMARINE CLAIMS NEW DEPTH RECORD

Spezia, Italy, March 29 (AP).—The new Italian submarine Mamei has made what is claimed to be the world's depth record for an underwater boat. It descended yesterday to 2,337 feet. The old record was 2,150 feet.

The Mamei is an 820-ton boat with a length of 212.26 feet. The test was made in the Gulf of Spezia.

POUGHKEEPSIE PLUMBERS WANT AN \$11 DAY WAGE. The plumbers' union of Poughkeepsie is seeking a new wage scale of \$11 a day for a five-day week, and has filed its demands with the Master Plumbers' Association of that city. The present wage schedule expires the first of May. Kingston plumbers are seeking a wage scale of \$10 a day with a five-day week.

School Children Aid Search. Kent, Ohio, March 29 (AP).—School children, excused from classes for Good Friday, took up the search today for nine-year-old Edwin C. missing from school here since Wednesday. No trace of the child was found.

## Billion Dollar Executives From Varied Fields

Five of the leaders of billion dollar corporations.

By WILLIAM R. KUHNS.  
(Associated Press Feature Writer.)  
New York (AP).—Post-war America's billion dollar executives include a machinist, a mining engineer, a mill hand, a school teacher, a lawyer, an electrician, a minister's son, an oil dealer, an electrical company executive and a scientist.

These men are the active administrators of enterprises combining under their control more than \$20,000,000,000 of the nation's wealth, any one of which would have been able to buy the 13 original colonies and to have put a fence around them.

Alfred P. Sloan, Jr., obtained a Bachelor of Science degree from the Massachusetts Institute of Technology in 1875, when he was 20 years old. He became head of a company manufacturing ball bearings and was 35 years old when he identified himself with automobiles as president of the United Motor Company. He became president of the General Motors Corporation 15 years ago, when he was 38.

Owen D. Young now is 55 years old and chairman of two leading electrical enterprises, the General Electric Company and the Radio Corporation of America, although in 1913 he was still a member of a Boston law firm. He obtained a degree in law from the University of Boston at 22 years of age and it was 17 years later, as vice president of the General Electric Company, that he turned to the work in which he was to become preeminent.

Walter S. Gifford, president and

director of the American Telephone and Telegraph Company, is younger by 7 years than any other of the "big ten". When he was 20 years old he took his A. B. and said goodbye to Harvard. He wasted no time and his first job was assistant to the secretary and treasurer of the Western Electric. He is only 44 years old.

Walter C. Teagle is another who has not varied his program a great deal. A record of his career thus far begins and ends with oil. He was graduated from Cornell University and became a dealer in oil immediately afterward as a member of the Cleveland firm of Scofield, Schurmer & Teagle.

The minister's son is Albert H. Wiggin, chairman of the board of the Chase National Bank, New York. In 1885, when he was 17 years old, he finished a high school course in Medfield, Mass., and went to work in Boston as a bank clerk. From bank clerk to president of the country's third largest bank summarizes his 61 years.

George B. Cortelyou, president and trustee of the Consolidated Gas Company of New York, was 16 years old before he showed any particular interest in gas and its distribution to the public. He was in succession a lawyer, school teacher and public official, his last post being secretary of the treasury under President Roosevelt, before entering the gas industry. He is the only one of the group who was born in New York city. He is 67 years old.

Henry Ford was 40 years old when he organized the Ford Motor Company in 1903. The district school and a course in business college gave him what classroom education he had, then he became a machinist's helper. He worked at this trade for 20 years before anybody ever referred to him as Henry Ford, manufacturer of automobiles.

James A. Farrell's father was a ship captain but the sea did not appeal to the son. He went to work at 16 as a mill hand to help support his family. He performed odd tasks around the mill, which made steel wire, and he has remained a "steel worker" all his life. Today, at 66, he is president and director of the United States Steel Corporation.

Charles E. Mitchell, president and director of the National City Bank, started out to learn the electrical business after leaving Amherst College. He began working in the Western Electric Company's Chicago office but returned to New York and at 30 was assistant to the president of the Trust Company of America. He is one of the youngest of the country's big executives, only 51.

William C. Potter, a mining engineer until his thirty-seventh year, brought with him an unusual accumulation of interests and experiences when he became a banker. At 54 he is president of the Guaranty Trust Company, 17 years after making a complete success in the engineering business. His first job was as an assayer with the Liberty Bell Mining Company, Telluride, Colo.

London Are an Expense  
The world has a right to object to the world's people. Even such people will be on the money, or in fact, charged with crime, to be supported or hanged by money collected in the form of burdensome taxes. If the world's people can be saved early in their careers, it means a saving in public expense.—E. H. Moore's Monthly.

## SMART FROCKS FOR EASTER

Fascinating in the variety of their fashion detail—the new spring frocks give unusual scope for individuality in selection. Materials, too, are all-inclusive, and range from the smart light-weight woolsens to charming silks in colorful printed patterns.

Afternoon Frocks of Black Satin, Georgette Printed Crepe, Kasha, Jersey or Tweed.

Nearly all have the swathed hip-line, introduced with shirring, fitted yokes or smooth flat sash effects. Necklines are varied, some with scarfs to give a soft line, other "V" shape, some a deep oval. Pleatings, ruffles, lace, all play their part as trimming for the newest frocks. Let us aid you in making your selection while assortments are complete.

PRICE RANGE

\$10.97 to \$35

## COATS and SUITS

FOR THE EASTER PARADE

In this collection, especially assembled for Easter selection, are coats and suits that represent the new mode in its finest phases. Smart lines, beautiful materials, perfect tailoring all contribute to make this apparel most attractive and desirable.

Tweed, Woolens in Ombre Stripes, Kasha, Cheviot, make the Smart Coats.

Some of the coats have scarf collars of the fabric or some flat smooth fur. Others have notched collars or are in tuxedo effect. In many cases the selvedge is cleverly used as trimming. Many of the models are finished with tailored stitching.

PRICE RANGE

\$10.97 to \$75

## THE NEW ENSEMBLES

Coats are long or short with equal smartness in the new ensembles. Frocks to accompany them are of the same or contrasting materials. Flares are introduced in clever ways, or the coats hang straight from the shoulder. The dresses are unusually smart—some of plain or printed silk.

Price Range \$10.97 to \$25.00

## Life Thoughts.

Master-Tide, the glad evangel,  
Comes once more to joy the race.  
Lo, its message now is written  
On each child's sunlit face.  
Evermore the gloom is sundered,  
Token of God's living breath.  
Christ is risen, with the message:  
Life must triumph over Death.

Lady Customer: "Have you a  
rice-pudding size?"  
Hardware Man: "I guess you  
mean a pistol."  
Lady Customer: "No, I want to  
see my husband's pockets."

A hypocrite thinks he is fooling  
somebody and he is right. He is  
fooling himself.

Trade Customer: "You can't fool  
me! Do you think I've bought  
groceries here for fifteen years for  
nothing?"  
Grocer: "I shouldn't be at all sur-  
prised."

What a vast difference between  
the break of day and being broke at  
daylight.

Ma: "You used to wear your  
dresses in the height of discretion.  
Now look at them!"  
Sis: "The height of discretion has  
gone up fourteen inches."

You may have noticed that the  
man who claims to be able to drink  
or let it alone never lets it alone.

Diner: "Why does that dog sit  
there and watch me all the time?"  
Waiter: "You've got the plate  
he usually eats from sir."

A writer says the modern dance  
is a wonderful exercise. Well, it  
exercises almost everything except  
discretion.

## He Was Right.

Kingston man: "I should have  
thought that a night club was the  
very last place a daughter of mine  
would go to."  
Flapper Daughter: "It usually is,  
father!"

A pleasant voice is the result of  
that kind of disposition.

"Are you sure that knife was  
lost?" asked the mother, eyeing the  
new looking pen knife.  
"Of course it was lost. I saw the  
man looking for it," answered her  
young hopeful.

## The Follow Through.

The crimson sun was sinking low  
As on the golf course stood the  
club.  
He couldn't hit the ball, but oh,  
How far that man could throw a  
club.

"Say it with flowers" was never  
intended to inspire men to throw  
bouquets at themselves.

Most big problems would solve  
themselves if little men would give  
them a chance.

Engineer: Paris has decreed that  
skirts should be forty centimeters  
from the ground.  
Statistician: Er—what is that, in  
miles?

People will never outgrow the  
habit of putting on a brownstone  
front on a bungalow income.

Some men are afraid to show their  
colors because of the yellow streaks.

Love begins in the parlor, but it  
has its final test in the kitchen.

## Will Rogers Please Note.

First Steno—What do you think  
of Will Rogers?  
Second Steno—Gawd! If I could  
chew gum like that man.

## Quick, Doc, the Derrick

When the circus veterinarian was  
called recently to see Myrtle, the big  
elephant, he diagnosed her ailment as  
toothache and said the offending  
molar must come out. A steam derrick  
was secured, ropes and pulleys adjust-  
ed, the power applied, and out it came.  
—Fama and Fireside.

Are You Run Down,  
Weak, Nervous?

To have plenty of firm flesh and  
the ability to do a big day's work  
and feel "like a two-year old" at  
night, you must eat three good  
meals a day, relish your food and  
properly digest it. If you can't  
eat, can't sleep, can't work, just  
take a teaspoonful of Tanlac be-  
fore meals.

Mrs. Harriett Grimes of 31  
Shields Ave., Buffalo, N. Y., writes  
us: "My appetite and digestion  
were all upset. I was tormented  
with headaches and dizzy spells.  
My daughter advised me to take  
Tanlac. Now I feel so fine that I  
can sweep, clean or cook all day."

Tanlac is wonderful for indiges-  
tion and constipation—gas, pain,  
nausea, distress and headache. It  
brings back lost appetite, helps  
you digest your food, and gives  
strength and weight. It contains  
no mineral drugs. It is made of  
roots, bark and berries, nature's  
own medicines for the sick. The  
cost is less than 2 cents a dose, just  
a bottle from your druggist. Your  
money back if it doesn't help.

## Rise Of Curb Market Jumps Seat Values To High Of \$190,000

Map (above) shows spread of the New York curb market whose rise in recent years has been phenomenal. The dotted lines show extensions that will be put into use shortly. Below is shown a view of the floor of the curb exchange during business hours.

New York, (AP).—The New York curb market, which was a homeless crowd of street brokers eight years ago, has settled down and made of itself a national institution.

One by one cities as far west as St. Louis have been linked by direct wire with the floor of the curb market and plans are under way to extend services to the Pacific coast and southward to the tip of Florida. Fifty important cities in the north, east and middle west now have minute-by-minute access to the curb's record of stock and bond transactions.

Ghosts of former curb traders who, tradition says, haunt that section of Broad street, where a gesticulating rabble surged and shouted in the old days, would certainly look long and incredulously at these figures:

In 1921, when the Curb Market association moved from Broad street and the open sky to its new home in Trinity Place, the total number of shares traded in for the year was 15,522,415. The bonds sold during that year on the curb were worth \$25,519,000. Seven years later, the shares traded in totaled 236,043,682 and the volume of bonds reached \$34,893,000.

Heretofore, throughout the history of security trading, as soon as a curb group organized itself and

moved "inside," another curb market would be formed by left over brokers. But when the present curb market entered its new quarters street trading in New York ceased to exist.

The spread of the curb's ticker service began immediately after the move. Today there are approximately 2,000 tickers in various cities and the new ones are being installed rapidly to meet the nation's new demand for financial news. Cities to be supplied very soon include Richmond, Louisville, Akron, Columbus, Youngstown, Minneapolis and Milwaukee.

The present curb market organization is a voluntary, unincorporated association with 550 regular and 550 associate members. Approximately one-half are cooperating with members of the New York Stock Exchange. The price of a seat on the curb has risen from \$8,900 in 1921 to about \$190,000. This increase, amounting to about 5,000 per cent, is directly the result of increased participation by the public in stock trading.

The curb performs a special function of importance in its "unlisted trading privilege." This enables the maintenance of an open market in rights and new securities not yet issued. The listing fee is \$1,000 and the fee for unlisted privileges is \$100.

## Five Cases in Police Court

Michael Ramundo, 17, of East Kingston, was arrested this morning by the police on a warrant sworn out by Henry B. Kidd of 16 Franklin street who charged the youth with petit larceny in stealing a bicycle. Later in police court Ramundo entered a plea of not guilty and the hearing was adjourned until Monday. Bail was fixed at \$50 and furnished by Judge Michael DeCicco of East Kingston.

Eugene Owa, Sam Watson, and Mose Richardson, three strangers arrested on Thursday by William Tierney of the West Shore police force who charged the trio with loitering around the West Shore railroad station. This morning all three were given suspended sentences of 30 days in jail, provided they left town at once.

Anthony Berinato of 692 Broadway

was arrested Thursday evening by Louis Hart of 53 Elmendorf street, who charged Berinato with assault in the third degree. This morning Hart failed to appear in police court to press the charge and Berinato was discharged by Judge Eschfeldt.

## Lupe Velez

Beginning her stage career at the age of fifteen years, Lupe Velez first public appearance was in a musical comedy, in Mexico City. Her first big role in the "movies" was assigned to her by Douglas Fairbanks—that of his leading lady in "The Gaucho." She was named as one of the Wampas baby stars of 1923. Miss Velez has an olive complexion, dark eyes and dark hair. "Lady of the Pavements" is one of her latest productions.

## THE WHY of SUPERSTITIONS

By H. IRVING KING

### HANGMAN'S ROPE

"IF YOU can procure a piece of a rope which has been used to hang a man, do not let it get out of your pocket as it brings great luck." This superstition has been universal ever since the custom of hanging men first became established—and that is a very long time ago.

Like many other superstitions prevalent today it has its origin in the custom of human sacrifice so popular with our barbarian ancestors as a means of propitiating their gods. The sacrificial knife which took the life of the human victim was a part of the sacred paraphernalia of the sacrifice, as the rope is part of the paraphernalia of the modern sacrifice to justice. As the human sacrifice was the highest form of sacrifice anything connected with it took on by sympathetic magic a peculiar sanctity, became by that same magic a part of the sacrifice itself and naturally brought to its possessor the protection of the gods. From the sacrificial knife to the hangman's rope was an easy transition for that part of the mind which, submerged in the unconscious, remains primitive; and when you carry about in your pocket "for luck" a piece of rope which has been used to hang a man with, you are but reverting to the custom of your ancestors who eagerly sought for and deeply cherished mementoes of the sacrifice at which a victim had been immolated to Odin or Thor.

By Viola Brothers Shore

### FOR THE GOOSE—

"A BUNDANCE," says Mr. Blot to, philosophically, "makes want." "You gotta take some chances in this world," replied the Little Woman, even more philosophically.

Neglect will kill anything—even an injury.

Lots of times a guy picks out a girl because she's the showiest flower in the ball room and then kicks because marriage don't turn her into a shrinkin' violet.

### FOR THE GANDER—

Ignorance is the one great misfortune that's inexcusable.

You might get another guy to take care of your money or your business. But your wife and your good name you gotta look after yourself.

The guy that knows he don't know might be somebody. But the guy that don't know he don't know might be me or you or anybody.

## Market for Fruits And Vegetables

New York, March 29—(State Department of Agriculture and Markets)—The wholesale markets for sprouts this morning was in a chaotic condition. The demand for Virginia spinach was insufficient to absorb the heavier receipts and consequently the price obtained was of less importance than that of finding a buyer. Many shipments did not even realize transportation charges \$2.75, principally \$2.00-\$2.25. During the preceding week California

spinach remained unsold. Florida new crop potato prices further advanced under continued limited arrivals. The old crop potato situation was still and slightly weaker. Jobbing business on Florida new crop No. 1 Spaulding Rose potato was consummated at \$7.25-\$7.50 per barrel. Maine Green Mountain potatoes in bulk, packing out at \$2.00-\$2.10, match \$2.10-\$2.25 per 100 pounds.

Supplies of California cauliflower were moderate. Good quality offerings met a ready sale in a trade firm market. Crates of nine and fourteen heads changed hands at \$1.75-\$2.25, principally \$2.00-\$2.25. During the preceding week California

started 2nd carloads of cauliflower to terminal markets throughout the country. Receipts of new crop cabbage were again plentiful from Florida. The market was weak and sluggish. Sales on white cabbage were reported at \$60-\$65.00 per ton and one-half bushel hamper. Red cabbage in similar containers brought \$1.00-\$1.25 and the same variety \$1.25-\$1.50. Although New York state crop cabbage was in very limited supply, values tended downward with the outlet very restricted. Sales of about 90 pounds of white Danish cabbage out at \$1.25-\$1.50. The intended acreage of summer Custom makes anything respectable.

Flashes of Life  
Sketched in Brief

(By The Associated Press.)

Belgrade—Nigh to an Adamless Eden in the Dalmatian village of Imotski. The only males are a few boys and old men; the others have left to seek their fortunes. Many sail the seven seas, as Dalmatians are great sailors.

Orange, N. J.—Ralph Giordano, deputy police judge, weight 225, is an Elk who took the part of the tortoise in the race with the hare. At the lodge he bet Brother James H. Driscoll, weight 195, on a ten-mile run, the loser to give \$200 to charity. Driscoll was asleep at the starting hour, 5 a. m. Brother Ralph in running togs covered the course alone.

New York—There's a mysterious bootblack king in town, such a mag-nate that his banker can pay the city \$30,130 a year for the shine concession on Staten Island ferries. The king has been so busy in conference that he has been unable to relieve curiosity about himself.

Lansing, Mich.—The Legislature intends to find out whether co-eds at the University of Michigan smoke and whether the company that mailed cigarettes to students under 17 violated the law. Cigarettes were sent to hundreds of students, and the house appointed a committee to inquire.

New York—Alfred E. Smith has

been elected a director of the Metropolitan Life Insurance Company. He is also a director of the County Trust Company of New York.

Quebec, Ont.—Golf links, grounds for football, baseball and tennis, a hotel and a clubhouse are among the reminders the town will have of the fact that Arthur W. Cutten, Chicago grain operator, was born here. He is providing the money.

New York—A suggestion that the iron with which Bobby Jones won his first national open be used as an international trophy is made by John Kierman, sport writer in the New York Times. Bobby used the club for a great shot to the home green in his playoff with Bobby Cruikshank at Inwood. Jones gave it as a memento to his friend, J. S. Worthington, when the latter was returning to England to die.

Essen, Germany—In the birthplace of mighty guns they are testing smoke as fertilizer. Industrialists are financing experiments in which smoke is forced underground by bellows. The hope is that the oxygen put into the ground will increase crops 50 per cent.

Camden, N. J.—Citing "the fine example of the mistress of the White House," a resolution adopted by the South Jersey Conference of the State Women's Republican Club urges members to decline all social activities where liquor is likely to be served.

Angora—Among other innovations there are stenographers in Turkey now. They have developed with the Latin alphabet.

"Nothing Too Good  
To Say About Nu-Erb,"  
Declares This LadyIndigestion, Weak Kidneys and Neuritis Relieved As If by Magic,  
She Says.

"Nu-Erb has given me such prompt relief from health troubles that have bothered me for the past three or four years that I consider it my duty to tell others about this medicine," said Mrs. David Mowle, who is the well known postmistress at Creek Locks, N. Y. (Near Kingston.)

"My stomach was in such bad shape that even the lightest of foods gave me indigestion and made me feel miserable for hours after each meal. Because of weakened kidneys, my sleep was disturbed three or four times each night. I'd get dizzy spells and spots before my eyes in the morning and a form of neuritis attacked me which caused gnawing, burning pains.

"All that has changed since I have used the Nu-Erb. I never have any trouble with my stomach now. My kidneys are in such fine shape

that most nights I sleep right through without being disturbed. The neuritis has entirely disappeared. I have a better appetite and I feel lots stronger in every way."

Sufferers from stomach disorders, weakened kidneys, sluggish livers, constipation, nervousness, headaches or rheumatic pains would do well to follow Mrs. Mowle's example and give Nu-Erb a trial. It is a pure compound of nature's own herbs, roots, barks and leaves so formulated to give quick relief to such ailments and help sufferers.

McBride Drug Store, 312 Wall St., is headquarters in Kingston for Nu-Erb. Go see the Nu-Erb man now making his headquarters there and let him explain to you the merits of this remarkable medicine.

## Hi-Y Club Hears Pastor Black

Wednesday night at the Y. M. C. A. the Hi-Y Club held its weekly meeting. Various subjects were brought up and discussed. An announcement was made concerning the moving picture, "William Haines in 'West Point,'" sponsored by the club and to be given April 16, 17, 18. President Shaver announced that a Hi-Y dance would be held April 12 at the Y's Men's lodge at Glenview and that a large crowd was expected. The speaker of the evening was the Rev. H. H. Black who spoke on the subject, "Wanted, a Man." The type of man wanted must be physically sound, with a sound, sturdy mind, a trained conscience and honest with himself and others. He illustrated his talk with vivid examples. President Shaver thanked the speaker and asked him to come and speak again. No meeting will be held next week.

### Term for High Water

The Naval observatory says high water occurs 50 minutes later each day on an average. High water follows the transit of the moon across the meridian of any place by a certain interval, which is known as the "establishment of the port." This interval is approximately the same throughout the year for any one place, but differs widely for different places.

## MAYAS RETAIN PRIMAL CHARM

White Men Never Able to Convert Yucatan's Ancient Tribes.

Merida, Yucatan.—Life still has charm and romance in the land of the Mayas. There is much that has not changed since the days when Bishop Landis tried his hand at converting the Indians four centuries ago and complained that the Indians instead had converted Gerónimo Aguilar, the first white man who lived among them. Gerónimo, the bishop suspected, had become "an idolatrous as they."

Picturesqueness in the modern Maya village is not destroyed, as it so often is in the Mexican villages on the mainland, by dirt and misery, for the Yucatecan Indian is a luckier creature. He is cleaner, healthier and richer.

The town of Ticul, a dozen miles or so from the famous ruined city of Uxmal, is an interesting example of what has grown out of four centuries of European civilization implanted in the heart of the greatest prehistoric American civilization.

Native Blood Predominates. Ticul was a growing town when the white man came, as the native will tell the visitor. Today nearly everyone who speaks Spanish speaks Maya, too, while a large proportion of the people speak the Indian language only. There is no pure-white blood left and native blood far predominates.

In the native sections of the town the Indians still live in their huts of sticks, adobe roofed with fan-palm, much as they did before the conquest. The most notable change is that they use the hammock, introduced from Santo Domingo, instead of the straw rug or "petate," which they used as a bed before, and hammock making has become a Yucatecan art.

Their huts are in gardens, fenced with limestone walls, rich with orange, banana, palm, papaya and sapote trees. Magenta-colored bougainvilleas and fire-red "flamboyan" add startling color to the picture.

Women Carry Burden. The handsome Indian or mestizo women, with spotless white cotton gowns, brilliantly embroidered at neck and hem, walk like barefoot queens through the stony streets, swinging jugs of water or naked babies on their hips. Statuesque women, with white-enameled washbasins full of beans or ground corn dough on their heads, stalk out of the spotless market with its crisp green piles of herbs and heaps of seeds and washed vegetables.

Maya potters still ply their ancient trade in Ticul, and the town supplies the surrounding region with earthenware dishes, pitchers and pots. The prehistoric disk or "kabal," which was on the verge of becoming a true potter's wheel, is still used. The potter sits on the dirt floor of his hut, turning the "kabal" with his toe and in step while he gouges out the wet mass of clay as it slowly turns and changes into graceful shapes under his strong fingers. Ticul yards are full of pleasant round shapes, drying in the sun, waiting for baking day, when they are turned to primitive ovens, such as were used before America was discovered.

### NEW PALTZ

New Paltz, March 29.—Mrs. Myron Shults and Mrs. Orville Seymour were business visitors in town last Tuesday.

A very interesting meeting of the House Mothers' Association was held at the Normal School Monday evening, March 18. About 50 attended. There are 85 houses in New Paltz which take Normal students. Dr. Lawrence H. Vanden Berg, principal of the Normal, gave a very interesting talk on many things of interest to the house mothers, including their responsibility to the school to help students follow the regulations of their Student Council. Miss Prisch, the school nurse, spoke a few words on the danger of allowing students to prescribe for themselves when sick instead of going immediately to a doctor for advice. A number of interesting questions from the question box were answered by Dr. Vanden Berg, Miss Prisch and Miss Fletcher.

On Tuesday evening, March 26, a lecture by Dr. Myron T. Scudder, who is well known by some in New Paltz and vicinity, gave a lecture in the American Reformed Church, Newburgh. The subject was "The Passion Play." This lecture has been given by Dr. Scudder 241 times. One hundred and twenty-five illustrated pictures were shown during the lecture. A collection was taken to defray expenses.

Dr. Eugene Christian, food science doctor, has been sentenced to three months in the work house for practicing without a license. The sentence was suspended when Dr. Christian promised not to practice again. He was arrested by an inspector of the State Education Department. Violet Pratt, after he had accepted a fee of \$5 for a course of treatment that he prescribed for her. It is believed that Dr. Christian's patients in New Paltz could testify that he delivers the goods even though he has neglected the formality of a license.

Mrs. John F. Ross has been visiting at the home of Dr. W. Ostrander in Clintondale.

George Williamson has a new roadster.

William Thompson has purchased a new sport model automobile.

winter at Melbourne Beach, Florida, recently spent a week end at the New River Hotel in Fort Lauderdale, Fla.

Mr. and Mrs. George B. Coy will soon begin housekeeping in the rooms on the second floor of the Martin building on Main street.

Mr. and Mrs. Stephen L. Johnston and family, who are spending the winter at Fort Lauderdale, Fla., have purchased a seven-passenger Studebaker President State sedan and expect to take a motor trip to California when school closes.

Mr. Johnston's mother, Mrs. George E. Johnston, will accompany them. They will go by the way of the Old Spanish Trail and return the northern route

back to New Paltz before returning to Florida again in the fall.

John Gallagher's house at Libertyville burned to the ground last week during the night. The fire was of unknown origin.

Louis Slater spent Friday afternoon fishing in the Wallkill. Five other men from New Paltz were engaged in the same sport, but apparently did not have very good luck.

Jesus Quick was the guest of John K. Smaller Thursday afternoon.

Mr. and Mrs. William Kruger were visitors in Modena on Thursday.

Alfred Ettinge and Mrs. Jacob Ettinge, who are wintering at Miami Beach, recently enjoyed dinner at the

New River Hotel in Fort Lauderdale, Fla.

Mr. and Mrs. DuBois Grimm expect soon to move from New Paltz to their new home at Modena.

Mrs. George Grimm spent Thursday afternoon at the home of Mrs. Myron Shults at Modena.

Sullivan Shafer Post, No. 176, American Legion, and the Ladies' Auxiliary held their annual banquet at Orchard Terrace Inn on Tuesday evening of last week. The tables were laid for 45 people and at 7 o'clock a roast chicken dinner was served. The menu consisted of fruit cocktail, soup, roast chicken, mashed potatoes, peas, cabbage salad, beet

relish, celery, pickles, olives, rolls, banana pie and cake. The dining room was prettily decorated. A large American flag was draped at the head of the tables and shamrock leaves of crepe paper were hung over the entire room. The table flowers were daffodils and yellow tulips. Following the dinner dancing and cards were enjoyed by all. Music was furnished by radio. The Legion members departed after taking a vote of thanks and making a resolution to make the banquet an annual get-together of the two organizations. The proprietors of Orchard Terrace Inn were complimented on the manner in which the

banquet was served. Harry Hornbeck and Lewis Van de Mark were the committee in charge of the banquet.

On Sunday afternoon, March 24, at 4 o'clock The Crucifixion, by Stainer, was sung by the choir of the Reformed Church. They were assisted by George Oates who is known to all New Paltz people and many others, and John Montague of Newburgh. The pastor, the Rev. Edwin D. Miner, gave a brief exposition on the theme that was taken up by the music.

C. Mathieson has returned to New York after spending a few days at Modena Inn.

## News from the World on Wheels

Motor bus and truck lines in North Carolina cover 6,000 miles of the state highway, giving daily and sometimes hourly service.

Improved roads are bringing about greater tire mileage. Registrations have increased 110 per cent during the past five years, whereas the number of tires produced has increased 52 per cent in the same period, according to a survey of tire and rubber companies by Whitehouse & Company.

Introduction of the Model 176 at a price six hundred dollars less than any corresponding Franklin type ever sold in previous years, has enlarged the potential market of the Franklin Automobile Company to approximately 450,000 motorists. Model 176 follows the fundamental design of the two larger models in the 1929 Franklin line and sells for \$2,750, f. o. b. factory, base price for the sedan.

FREEMAN WANT ADS BRING RESULTS!

**Strength**  
Like the ancient king who said that  
had no garment stronger than the  
piece of his people, we in our va-  
rious positions in life are no stronger  
than the loyalty of those who are as-  
signed with us. If the men who  
work for you do not really like you,  
your organization is weak, no matter  
how well it seems to function for a  
time. If you do not have loyalty, you  
do not deserve loyalty. You lack  
something which attracts it and you  
cannot expect it.

**How to Feed the Rat**  
An ingenious way of catching rats  
is told in the People's Home Jour-  
nal. In setting the rat trap this ar-  
ticle advises the covering of it with  
cheese paper. Rats are too intelligent  
to walk into an open trap. However,  
they are curious to know what is un-  
der the paper, and will soon find out.

**And Rheumatism**  
Wisdom comes with age, they say—  
but, also, too often, so does baldness.

"400" Standard Six Sedan  
\$970.00  
DELIVERED  
FULLY EQUIPPED

Most People Expect "400" Prices to be  
Higher than they Actually are

PEOPLE who have formed their price-impression of the Nash "400" from seeing this striking new car, and from the enthusiastic comment of "400" owners, are very apt to price it higher than it really is.

"400" prices are a big "400" feature. The Standard Six "400" Sedan, illustrated above, is an excellent example of the new value Nash now offers.

Here are some of its notable features—features of highest quality which you are not accustomed to expect in a car at its price:

A very powerful, high-turbulence, high-compression, completely-pressure-lubricated motor, with 7 bearings.

A lengthened wheelbase, new double-drop, tubular-trussed frame, alloy steel springs, and 4 Lowjoy hydraulic shock absorbers, for unsurpassed riding ease.

And complete equipment—full-sized cowl lamps, gasoline gauge and motor on instrument board, bumpers front and rear, spare tire and lock, shock absorbers, freight and handling charges—all included in the delivered price quoted above—nothing more to buy!

10 Sedans from \$970 to \$2120, delivered. 8 Coupes, Cabriolets, Victorias from \$970 to \$2061 delivered.

The New NASH '400'  
Leads the World in Motor Car Value

## American Girls Help

## Students in Europe

New London, Conn.—To enable two or three needy European students of merit to attend college in their own country, the student body of Connecticut College for Women has decided to establish a scholarship fund for that purpose.

The accumulation of the fund will be used every other year. The plan heretofore has been for student contributions to be disbursed from New York. The change is due to desire to have more personal contact with students abroad who are aided by the college.

## Bob Bounces Back

New York.—Bob bounces the trim bob into favor. Beauty shop owners in convention have agreed that the longish variety, which curls at the back, requires more attention than the average woman can give it.

## Couldn't Follow Rule

St. Paul, Minn.—Rule No. 1 for robberies is: Phone the police. It couldn't be done at the J. L. Abchatten drug store here even after the robbery was discovered. The stolen object was the pay phone.

## 1 of Every 79 Deaths

in Chicago a Murder

Chicago.—The health department, which is interested in finding out why Chicago people die, has found out that murder sent 400 to the cemeteries last year.

The toll of homicide far outranks some of the common diseases and even surpasses influenza, statistics show. The killing rate is 24.1 per 100,000 population. This means that of every 79 persons who died in Chicago one was killed by violence.

**ELEANOR GUNN ON FASHIONS**  
 THE SEPARATE COAT IS OFTEN ELEGANT AND ALWAYS INDISPENSABLE  
 New York—The separate coat retains its status in spite of a growing appreciation of the ensemble costume. While the spring coat is varied in silhouette and in trimming details, it is indispensable and should be intelligently selected so that it may create an ensemble impression with at least one frock.  
 There is a difference of opinion concerning the merits of the straight line as against the flaring one. Opinions coincide however pretty much as to the princess line, voted the most stunning of all coat silhouettes this spring. Fox remains the most fashionable fur according to some, others holding out for galeak and other flat pelts. Curiously enough the separate coat is greatly inclined to fur trimmings while the smartest ensembles

A Parisian Conception of the Princess Coat Developed in Black Crepe Satin Cording and White Stitching. (Copyright, 1929, by Fairchild)

are remarkable for their untrimmed coats. The flaring silhouette, sponsored by Paris is looked at askance by America. It tends to produce an effect of animation in coats which is in accord with the prevailing dress ideas. Many of the most stunning models are remarkable for interesting cuff treatments, not always of fur, but resulting from clever handling of the fabric.

Black is not only the smartest but the most practical choice for afternoon wear, but the navy coat has won its spurs this season.

Separate coats are not infrequently of moire or some heavy silk. (Copyright, 1929, by United Feature Syndicate, Inc.)

**Silk Knit Sweater of Novel Diagonal Weave**

For school wear, a silk knit sweater of novel diagonal weave and a pleated skirt of Rameau make an ideal outfit for the young college girl. The model here shown is worn by a prominent motion picture actress.

**Light Blue Silk Crepe; Bandings of Dark Blue**  
 Showing a dainty little frock of light blue silk crepe with bandings of dark blue crepe. Notable here is the arrangement of the neckline with the two-toned blue crepe trimming running toward the waistline, where it almost joins the bandings of wider proportions encircling the bottom of the blouse. Similar bandings add to the chic of the plaited skirt and sleeves. A group of self-toned buttons complete the neckline trimming. A light blue hat and blue kid slippers are worn.  
 Chintz prints are new for chiffons which Paris uses for dinner and dance dresses. Saw one at Phillippe et Gaston's with a long circular crepe skirt open in front over rows of crystal beads. The colors are rose, green and lavender on a white ground. Rita.

**OUR DAILY PATTERN.**

A Charming Frock for the Growing Girl.

6417. Printed georgette is pictured in this design. One could use taffeta or silk crepe. Cotton prints are also suggested. The left front laps over the right front, in scalloped outline, below which the skirt is gathered at the left side. The back blouses slightly above a flare skirt section. A comfortable sleeve is finished with a hand cuff, above which it pouches most pleasantly. A straight belt or a ribbon sash will hold the dress in blouse effect.

The pattern for this attractive style is cut in four sizes: 8, 10, 12 and 14 years. To make the dress for a 12-year size will require 2 1/2 yards of 46-inch material. For belt and facing of contrasting material on cuffs 1-6 yard is required 40 inches wide.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

ing, also some points for the needle (illustrating 20 of the various simple stitches), all valuable hints to the home dressmaker.

**Lace or Indian Prints Popular for Trimming**

Polka dot dresses, often trimmed with lace or India prints are extremely popular in the latest collection of costumes, created for the coming summer. Such stuffs as satins, crepes, georgettes, light woolsens, heavy silks, in black, white, navy and green are favored. One dinner dress has a panel which can be dropped to form a train; an afternoon dress has a matching cape which can be tried around the waist to form a skirt volant. Short, puffed sleeves and dusters placed at back of waist are among the novelties evolved.

Premet goes in for the rather quaint old fashions. Silk alpaca is used for street costumes; skirts are reversible, being plain woolen on one side and plaid silk on the other. The waistline is normal.

Martial et Armand are featuring gay colors, with yellows, greens and plaids predominating. Their youthful models show the 1930 silhouette while those for mature women have softer draping lower waistline.

**White, Black Favored in Paris for Evening Wear**

White is most fashionable for Paris evening wear and it is very becoming to dark or auburn hair or near a warm or very white skin, with natural or artificially colored cheeks and expressive features. Bright colored jewelry, like emeralds, rubies or sapphires, can be worn as necklace, earrings, bracelet or brooch. Black is always very striking when worn with blond hair and brightened up by pearls or diamonds. It is very fashionable and it can be effectively enhanced by a colored wrap. Dresses of intense colors, such as scarlet, sapphire or chartreuse green, are also in vogue and becoming to the same type of woman.

**Smooth Linings**

It has been discovered that clothes are almost ruined in weather at all damp by sitting in them for long stretches as one must do at a dinner party or a theater. The only thing which will save them is a perfectly smooth slick lining. For this purpose nothing seems better than rayon fabrics and these are being extensively used for the purpose.

It is a good plan to get through talking before the other fellow gets through listening.

**Complexion Shades in Stockings for Women**

The new shades in which stockings are made are causing much comment. It seems generally agreed that the most popular this season will be the complexion shades. Many of very sheer chiffon, come in dark beige, tan and a sun-tan tone. These are to be worn with frocks of the new gay prints fabrics, which have touches of red, orange, beige, brown or any other allied colors. For wear with the tailored costumes the dark brown tones are most appropriate, their very sheerness taking away any impression of heaviness or too somber appearance.

Clocked effects are found in new and interesting designs, some very narrow, others wide enough to cover entirely the ankle bone. For evening wear there are several designs that extend far up on the leg and end with a fancy motif, either conventional or modernistic.

Mesh stockings are made in new weaves that are so exquisitely woven that they look like the one-time popular face veils.

## Governor Goes to Hyde Park Home

Albany, March 29 (P).—Governor Roosevelt was prepared to leave for Hyde Park home late today, taking with him much of the financial work of the legislative session. From eight until Sunday, when he returns to Albany, he will study as many of the appropriation bills as are available but which will not include the supplemental budget bill amounting to \$54,000,000.

"I am going to look over the bills and find out where the finances of the state stand," he said. "We want to determine whether we have over-appropriated."

An opportunity to inspect the needed supplemental budget bill, passed in the closing days of the legislative session, will not occur before next week, according to the governor. He maintained his reticence to discussing the possibility of veto of the budget bill and the consequent necessity of an extraordinary session of the legislature to pass a bill providing the money for operation of several state departments and institutions.

## DESIGNS FROM LAW ENFORCEMENT LEAGUE

Mrs. Harry P. Van Wageningen, who has been the enthusiastic and active chairman of the Ulster County Committee on Law Enforcement, has been obliged to resign because of continued nerve shock as the result of being thrown from a moving motor car some two months ago. Although able now to be about the house, Mrs. Van Wageningen has been advised to give up all outside activities for the present. Because of her profound interest in the law enforcement problem she has given up this special activity with sincere regret.

## Shoots Priest Who Arrested Sons

Chicago, March 29 (P).—A Roman Catholic priest was shot three times and probably fatally wounded today by the father of two boys whom the priest had arrested for burglarizing his church.

The priest, Father C. A. Erkenswick, pastor of the Church of the Holy Ghost on the west side, was arrested in the churchyard as he talked to several men by the boys' father, Gaudino Menna, who asked for the head priest and when the minister replied he was in charge of the church handed him a letter.

As Father Erkenswick started to read it Menna whipped out a pistol, shot the clergyman in the head, and then fired two shots into his back as he fell. Menna fled to his home near the church where police squads armed with tear bombs and riot guns arrested him.

The priest was hurried to a hospital where doctors said he probably would die. Menna's two sons, John and Paul, were arrested in the boys' court today on charges of having stolen from the church.

Six Months for Intoxication. David Coniker of Ellenville received a sentence of six months in the Ulster county jail Thursday from Police Van R. Moffat, who found him guilty of public intoxication. Coniker, who is a married man and a painter by profession, had served time before for intoxication.

Sauter's Condition Good. The condition of Charles Sauter, who received a fracture of the skull in an automobile accident several days ago, was reported as apparently good at the Kingston Hospital today.

Jacobite Toast. When through an oversight no finger bowls follow your dinner, just be philosophical, remember that for 313 years the British royal family got along somehow without them. But it was far from an oversight with the kings and queens of Britain. After the exile in 1688 of James the Old Pretender, the Jacobites, his adherents, instituted the clever custom of lifting the glasses in such a manner as to bring them over their finger bowls, and so were in reality toasting the "king over the water." Suddenly finger bowls were conspicuous by their absence and the Jacobites knew their deception was detected. It was not until Edward VII began reigning in 1901 that the bowls reappeared.—Detroit News.

Furfural Is Now Cheap. Once a chemical curiosity, selling for \$30 a pound, furfural, widely used as an insecticide, now sells for 10 cents a pound as a result of recent discoveries by chemists who have succeeded in producing it from oat hulls and other waste farm products.

A discovery by Prof. Orland R. Sweeney, chemist at the Iowa State college, has opened up an entirely new source for furfural in sugar beets. After the sugar has been extracted from the beets, the pulp is put through an additional process which extracts the chemical.

Besides serving as an insecticide, furfural is used in making synthetic resins.—Popular Science Monthly.

Affected Great Actor. Lucy Cable Bickle, in her biography of her father, George W. Cable, includes a letter in which the novelist described his meeting with John Drew, the actor:

"Margaret and I" reads the letter, "went last night to hear John Drew in 'The Second Command'."

We went behind the stage after the play and saw him and his daughter. He said, 'This is the first time I've had a chance to tell you how I cried over 'The Cavalier'—over the captain's death.' I said, 'You make me proud. Did you cry?' He said, 'Cry? I bawled!'"—Detroit News.

Tit for Tat. Down dropped the policeman's arm and immediately the traffic stream was in motion, one car shooting out in front of the other vehicles.

At that moment a pretty girl made an indiscreet dash for an island in the center of the roadway.

She would have been knocked down by the swiftly moving car had not the driver jammed on his brakes.

"Women and donkeys are always in the way!" he shrieked furiously at the girl.

"Glad to see you've the manners to put yourself last!" retorted the girl coolly.

## Local Death Record

Kerhonkson, March 29.—William H. Morse died at Indian Valley Inn, home of his brother, Peter C. Morse, on Tuesday, March 28, aged 72 years. Deceased was a member of the Elks who will hold services at the H. R. Humiston chapel here on Saturday evening. Funeral services will be held at Humiston on Sunday at 2 p. m. Interment at Worcester, Mass.

Joseph H. Moore, 75 years old, who was struck by a motor car driven by George Lacy last Tuesday, and who died Thursday at the Kingston Hospital as a result of injuries sustained at that time, is survived by one son, Frederick T., and three daughters, Alice and Edie and Mrs. J. B. Donaldson. Funeral services will be held Saturday afternoon at 2 o'clock from the residence of his daughter, Mrs. John B. Donaldson, Harwich street. Relatives and friends invited. Interment in Montrose cemetery.

The funeral of Augustus J. Peppard of 172 Green street, held Thursday morning at 10:30 at St. Joseph's Church, was attended by many relatives and friends. The Rev. Edmund Burke, assistant rector, officiated. There were a large number of floral offerings, several

being from departments in and former shop mates at the Van Slyke & Horton cigar manufactory, also many spiritual or Mass cards. The hearse was John Brophy, Edward Cunningham, Matthew Cutler and Thomas Peppard. Interment was in the family plot in St. Mary's cemetery.

Mrs. Cornelia Elizabeth Maxon died Wednesday at the home of her granddaughter, Mrs. Eva Van Steenburg, 55 Garden street, in her 85th year. Despite her age, "Grammy," as she was affectionately called by everyone, had been active until around the holidays. In her kindly manner and beautiful disposition she had endeared herself to many who will learn with sorrow of her death. Two granddaughters, Mrs. Lillian Van Steenburg of Dearborn, Michigan, Mrs. Eva Van Steenburg, with whom she made her home, a sister living in Springfield, Massachusetts, and several nephews and nieces are the survivors. Funeral will be held Saturday afternoon at 2 p. m. with interment in Wiltwyck cemetery.

The couple will make their home in Philadelphia.

## Slumber Long, Advice of Woman Physician

Dr. Stella Churchill, repeating the saying that a man slept six hours, a woman seven, a child eight, and a fool nine, remarked during a talk at the Institute of Hygiene, London, "I am glad to say I am numbered among the fools."

"After the age of three, human beings do not require daylight sleep, except on Sundays, when the national habit of overeating makes them drowsy. The more one eats, the more sleep is required."

"For an average person, I advocate between eight and nine hours' sleep. Growing children should sleep on a hard mattress, and the bed should never be placed against a wall."

"One's judgment is impaired by lack of sleep. Girls have married the wrong man and refused to marry the right one because their judgment has been at fault following sleepless nights."

"People should not be wakened from sleep. We are still suffering from the old-fashioned idea that there is something shameful about being asleep, as exemplified in the hymn about the sluggard who is disinclined to wake up."

## Hero and Heroine In Senior Play

The 1929 Senior Class of Kingston High School will present on April 26, in the school auditorium, "The Romantic Age," a three-act comedy written by A. A. Milne. The cast consists of five boys and four girls. The play is being directed by Miss Ann Byrne, elocutionist. Miss Byrne has staged splendid plays in the past and it is promised that this one will equal if not surpass the others. Conrad Schornstheimer is taking the part of the hero while Vivian Klotz, who has taken the part of the heroine in several plays at the school this year, namely "Clarence" and "All Aboard," is playing the leading female role in the coming presentation also.

## Explosion in Bomb Factory Kills 5

Nogales, Ariz., March 28.—Five persons met violent death and three others were injured last night in an explosion that destroyed a Federal bomb factory near Mexicali, capital of the northern district of Baja California.

Franz Schulerberg, German bomb maker, his 17-year-old daughter, Blanche, and three Mexican Federal soldiers on guard duty were killed. The blast resulted when a bomb exploded in the process of manufacture, throwing off nine tons of explosives and thirty small bombs.

The explosion, which jarred the town, Cal., just across the border, injured Francisco Kenneth, chemist engaged with Schulerberg in making bombs, and two soldiers. All three were in a hospital in a serious condition.

Another soldier was blown out a window but was uninjured.

## Deny Execution of Canton Governor

Nanking, China, March 28 (P).—The nationalist government tonight officially denied reports that Li-Chin-Sun, governor of Canton had been executed.

Chinese nationalist soldiers, moving to put down the movement in the Wuhan cities of Hupieh, have captured the city of Wusueh, inflicting sharp losses on Wuhn troops there.

Wusueh is in Hupieh, on the Yangtze Kiang, between the Wuhan cities and Nanking.

## Bows and Arrows For Killing Game

Albany, March 29 (P).—Henceforth white men and Indians may kill their game with bows and arrows. A bill allowing this method of hunting has been signed by Governor Roosevelt, he announced today.

The original clause in the conservation law allowed the taking of game only with "a gun held at arm's length" or by trapping. The bill, introduced by a resident of New York city, Charles W. Postbauer, Democrat, amends the law to include use of the long bow.

## Commandery To Attend Service

On Sunday evening Rondout Commandery, No. 52, Knights Templar, will attend the service at the Clinton Avenue Methodist Episcopal Church. Seats will be reserved and the pastor will deliver a message bearing upon the principles of the order. Special music will be rendered by the Junior League choir. A cordial invitation is extended to all those interested to attend.

## Chandlers Again Defeat Knights In Close Battle

(By The Associated Press)

St. Petersburg, Fla.—With a long barnstorming trip into Texas as the next thing on the Yankee schedule, Manager Huggins has decided to take them into camp 21 to 22 at the Port Ewen court Thursday night. The players, Herb Pennock and Benny Bengough will remain here while their mates start their roundabout trip home. Bengough is recovering from the removal of his tonsils and little but when the half came around the Chandlers were still in the front position. It was in the third quarter that the Chandlers rolled up a good lead, but in the last period the Knights cut it down somewhat. The Chandlers' new defense worked splendid. The Knights most of the time were helpless. The Chandler men blocked and caught passes while the Port Ewen men were trying to get loose. It was the Chandler men who made the difference in the game. The Chandler men, who found the hoop from the fifteen foot line. It was some time after that the Chandlers tallied. The local "Y" team had the ball in their possession most of the time. This began to tell the story. They were playing the Knights for all they could get out of them. Finally they did. Merritt tossed a pass to Kennedy and the latter caged it with ease for the first Chandler score. A few minutes later Merritt scored a field goal and this ended the scoring for the first quarter with the Chandlers leading 14 to 1.

In the second quarter there wasn't much scoring. Fox added four points to the Chandler's scoring column when he caged a deuce and two fouls. Then there was some time spent by both teams in passing the ball about and many long shots were taken but they were all fruitless. Van Etten now scored for the first time. He found the hoop from the side of the court for a two-pointer and A. Short tallied from the penalty line. Lester Van Etten again found the hoop for a field goal and Terwilliger made a free throw good. The half now ended with the score still in the Chandlers favor, 11 to 8.

It was in the third quarter that the Chandlers rolled up a good lead. Niles tossed in a field from the center of the floor. This score was blotted out a few minutes later by a deuce made by Hyatt. However, Niles had his shooting eye with him and he again tallied from scrimmage. Joe Blass gave a helping hand on the scoring end of the game when he tossed one in from over his head. Smith matched Blass's field with a two pointer but Merritt now did the scoring act and the Chandlers regained their seven point lead. It was after a time out period that Hank Krum scored which ended up the point getting for the third quarter the score being Chandlers, 21; Port Ewen, 12.

The Knights in the last quarter closed up the gap between the scores in quick fashion. Smith and A. Short both found the hoop from scrimmage. There were several baskets made after this but they didn't count. However Niles succeeded in getting a two-pointer and Van Etten did likewise for the Knights. McLane made a free throw good and Merritt accompanied the single with a field goal. Hyatt now made two foul shots good and the score was 24 to 22 in the Chandler's favor. It was after this that a Port Ewen man tallied from scrimmage but as the game was over before the basket was made it didn't count. The final score was Chandlers, 24; Port Ewen, 22.

## Sport Notes

Sleep is the greatest gift to man—except golf.

Pennsylvania outdrew Illinois by \$200,000 in boxing and wrestling for the year of 1928.

The military polo tournament between teams from the United States and British armies will not be held this year.

When the Claremont Country club held a housewarming 3,000 San Franciscans inspected the West's biggest clubhouse.

The women's senior outdoor swimming championship of the Amateur union will be held in Honolulu the coming year.

Jack Earl, who is deputy sheriff of El Paso, Texas, has enrolled as a golf student in a school in Chicago. He is 5 feet 7 inches tall.

A continual sense of fatigue is unnatural, says a medical publicist replying to an inquirer, possibly a follower of wrestling.

Robert L. ("Dink") Templeton, track and field coach at Stanford since 1921, has signed a contract to continue in that capacity for another five years.

Gene Taney, former heavyweight boxing champion of the world, has been engaged to write an article on "Boxing in America" for the Encyclopedia Britannica.

Women in California are organizing the first feminine hockey league in the country to be known as the West Coast Girls' league. Several cities already have fast teams.

During his racing career Jockey Johnny Callahan, now a trainer, guided home the winner of practically every major stake in the United States and Canada. He rode continuously from 1902 through 1923.

## Official Dies As Legislature Ends

Quebec, Que., March 22 (AP).—Sir Homer Goode, lieutenant governor of the province of Quebec, died yesterday as he was about to terminate the session of the provincial legislature. He was 65 years old.

Sir Homer was mounting a stairway to the legislative council when he was struck with an attack of heart disease. He was carried to his office. He died while a plan was being made to have the proclamation proceed by having a clerk read the list of bills and then take them to Sir Homer's office for his assent.

New Fire Hydrants Installed. Men in the employ of the water department have been busy during the past few days installing new fire hydrants in various sections where the old type hydrant was still in position. The new hydrants have a plug for attachment of the big pump hose. These hydrants have been in use in the greater portion of the business districts for some time.

## EVERY DISEASE FOUND IN CHINA

## Sanitation in Western Sense Completely Lacking.

Washington, D. C.—In China every known disease exists, and food, water and families are crowded. But the political and economic situation affects the people's health more than any of the diseases. In the opinion of an official of the United States public health service who has recently returned from China, ignorance and terrible poverty are of course responsible for the prevalence of tuberculosis, smallpox, cholera, intestinal diseases and diseases resulting from faulty diet.

Sanitation in the western sense is completely lacking for all but the wealthy mandarin class. In fact, vast numbers of the Chinese population have not even a roof to cover them while they sleep, or to protect them from the elements. Their entire property consists of the rags they wear as clothing. The ricksha coolies, hot and sweating after their last run, have nowhere to sleep at night but the pavement. Such exposure combined with underfeeding makes tuberculosis especially prevalent among them.

No foreigner dares to eat uncooked food in China. Salads of raw lettuce, celery, tomatoes, etc., are so dangerous as to be prohibitive. In spite of all precautions, foreigners nearly always get dengue fever if they are in the country for any length of time.

A fungus infection of the feet, known as Hongkong foot, is very common. It is spread by the barefoot coolies, but shoe mandarins and foreigners also acquire it.

The civil wars are of course responsible for great loss of life. This is due not so much to the numbers killed in battle as to the starvation that results when all the able-bodied men of a large district are called from the fields to the armies. Crop failure is the first consequence and famine the second. In a country as thickly populated as China, failure of one crop spells disaster far more complete than in other less densely populated countries.

## Traces of Ancient Race Unearthed in Nevada

Los Angeles, Calif.—Traces of the oldest Americans are being sought in Nevada and eastern California by an expedition from the Southwest museum. The expedition, which is led by M. R. Harrington, is exploring a region that is almost unknown country from the archeologist's point of view.

Scattered discoveries made in Nevada show that the early Pueblos lived and farmed that far northward. Traces of the old basket makers, who preceded the Pueblos and lived many centuries before Christ, have also been found.

The territory chosen by the expedition may yield evidence of Americans much older than this, according to James A. B. Scherer, director of the museum, for it is generally accepted that the original Americans entered this country by way of Bering Strait and migrated down through the West, crossing the valleys where the expedition will camp. Special attention is to be given to caves of the region, according to Mr. Scherer, because in these dry and protected recesses the remains and possessions of the early Americans are found best preserved. The caves are being rapidly looted by irresponsible relic hunters, and scientists have found, and must be explored soon or never.

## Vast Wealth Amassed by Old Time Monarchs

Among those in ancient times who could afford to turn over and take another nap in the morning, one of the wealthiest was Xerxes III, according to a writer in the Detroit News. This Egyptian pharaoh some 3,000 years ago was dazzling the known world with his treasures. Distinguished estimates of his wealth at about \$200,000,000, equivalent to the purchasing power of \$10,000,000,000. Croesus, the best known of all rich men, probably was not quite as wealthy as Xerxes, but he was able to give the equivalent of \$200,000,000 to the Delphic Oracle as a bid for victory against the Persians. And, be it added, took his defeat like a man. Croesus had a relative, Pythius, who handed Xerxes \$24,000,000 one day as a token of his esteem and when Xerxes hesitated, assured him that it was a mere trifle to what he had on hand. Considering that the money would have to be multiplied by 20 to realize its purchasing power today, that was one of the largest gifts ever made.

Solomon's income was equal to \$20,000,000 a year. Sardanapalus, Nero, Lucullus, the queen of Sheba and Cleopatra, if alive today, would be respected by some of our richest nabobs. Then there was William de la Pole, who, in the fourteenth century, loaned his king \$5,000,000—to tide over a royal embarrassment—and never got it back.

## Had Not Really Done Much to Relieve Him

"Have you given him anything or done anything to relieve him?" asked the young doctor, who had fared far into the backwoods to see a patient in the dead of a stormy night. "Well, no, doc—that is to say, nothing to speak of," said the wife of the patient. "I had him soak his feet in almost 'tilin' water with a lot of mustard in it, an' I clapped a red-hot plaster on his back, an' another one on his chest, an' I've put a couple of blisters I had in the house under his arms, an' a bag o' cracked ice on the back of his neck, an' I had him drink a pint o' ginger tea jes' as hot as he could swallow it, an' I follered that with some yarb bitters one of the neighbors sent over, an' I had him take five or six pills out of a box I got one day from a man that come along with medicine to sell, an' he's had three or four spoonfuls o' Quinquin's pain-killer an' one of these sideltiz powders, but I didn't feel like as if I ort to give him much o' anything, or try to do much for him, until you come an' see what you think ailed him."—Credit Lost.

Riding the Market. The difference between a hitch-hiker and an amateur stock-market player is that the latter will always find it easier to be taken for a ride.—American Magazine.

Chemistry Popular. More persons are engaged in the pursuit of chemistry than in any other science. There are approximately 22,000 chemists and assistants in the United States. The teaching of chemistry in colleges and universities, in medical and other professional schools requires a large number of the most highly trained specialists in the field; in many university departments important research is carried on. Industries for the manufacture of chemical products, foodstuffs, gases, leather, metals, paints, petroleum, photographic materials, rubber, soap, textiles and other products maintain laboratories for the control of production, for development and for research, in which chemists are employed as analysts, research workers, department heads and chemical engineers.

Swedish Superstition. One of the strangest superstitions is that believed by some in Sweden that when a man dies after having been a faithful husband his shirt goes to heaven with him. If the wife dies first and the widower is married again he must destroy his first shirt on the eve of his second wedding. Disregarding the assumption that there is no good reason why a shirt that has given long and faithful service should not be permitted to accompany its master to eternal reward, the origin of this superstition probably is to be found in the Viking burial custom that called for the warrior's incensement in his best battle clothes, for it was assumed that he would need them—even in Valhalla.

## Cuba Quits Bongo Drum as Incitement to Savagery

Havana.—The Cuban government has prohibited the beating of the African bongo drum. The restriction carries heavy penalties on the ground that the monotonous reverberations induce a state of savagery in ignorant listeners and a state of irritation in others. To those who have studied the history of Africa the bongo drum is well known as the wireless system of African tribes, and beats from these drums, sometimes 25 miles apart, send messages throughout the densest jungles. To those who have studied voodooism the bongo drum is likewise known, for it is used to incite dancers to a dangerous state of savagery.

Flaw in Washington Survey. Madison, Wis.—A flaw in surveying notes made by George Washington showing 30 per cent more acreage than a plot actually contained, has been discovered by a University of Wisconsin student.

Hand in Hand. Whenever there is a boom there is usually a good deal of bunk.—The American Magazine.
